### EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Troy Cole on 11/10/05.

The application has been amended as follows:

In claim 1 line 6, "and" has been deleted.

In claim 1 line 10, "supply" has been replaced with --supply;--.

In claim 1 line 12, the period has been replaced with --; and--.

In claim 1 line 13, the phrase --wherein the front and middle portions are constructed to allow mortar to be placed around the sides of the front portion and part of the middle portion so that a plurality of bricks can be installed flush with the face of the front portion.-- has been inserted as a separate paragraph.

Claim 7 has been canceled.

In claim 8 line 1, "7" has been replaced with --1--.

In claim 15 line 3, "building wherein the longitudinal axis of" has been replaced with --building, wherein--.

In claim 18 line 2, "building" has been replaced with --building,--

In claim 18 line 3, "the longitudinal axis" has been deleted.

Claim 20 has been canceled.

In claim 21 line 1, "20" has been replaced with --19--.

Art Unit: 3679

In claim 22 line 3, --hose bib-- has been inserted before "containment".

In claim 22 line 5, the phrase "along a longitudinal axis substantially perpendicular to" has been replaced with --in a substantially perpendicular direction away from--.

In claim 22 line 8, "are" has been replaced with --is--.

### **REASONS FOR ALLOWANCE**

The following is an examiner's statement of reasons for allowance:

The prior art of record does not disclose, singly or in combination, an apparatus as claimed in detail in claims 1 or 22, a method as claimed in detail in claim 15, or a construction as claimed in detail in claim 18.

The closest prior art includes Hill (US 4,473,244) and Gaghan (US 536,801).

Regarding claim 1, Hill at least fails to teach or fairly suggest the limitation "wherein the middle portion extends along a longitudinal axis of the hose bib a greater length than the front portion or the back portion". Gaghan at least fails to teach or fairly suggest the limitation "wherein the front and middle portions are constructed to allow mortar to be placed around the sides of the front portion and part of the middle portion so that a plurality of bricks can be installed flush with the face of the front portion."

Regarding claim 15, Hill at least fails to teach or fairly suggest the limitation "wherein the middle portion extends in a substantially perpendicular

direction away from the exterior wall in a length greater than the front portion or the back portion". Gaghan at least fails to teach or fairly suggest the limitation "placing mortar and bricks around the hose bib containment device so that the bricks are substantially flush with a face of the front portion".

Regarding claim 18, Hill at least fails to teach or fairly suggest the limitation "wherein the middle portion extends away from the exterior wall in a direction substantially perpendicular to the exterior wall in a length greater than the front portion or the back portion". Gaghan at least fails to teach or fairly suggest the limitation "bricks and mortar fixed on the exterior wall surrounding the containment device, said bricks being substantially flush with a face of the containment device".

Regarding claim 22, Hill at least fails to teach or fairly suggest the limitation "wherein the middle portion extends in a substantially perpendicular direction away from the exterior wall greater length than the front portion or the back portion". Gaghan at least fails to teach or fairly suggest the limitation "a plurality of bricks placed around the hose bib containment device, wherein a surface of said bricks is substantially flush with a face of the front portion".

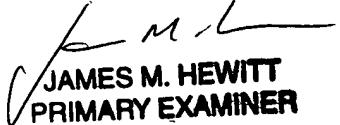

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
